ABOUT US

Glenlake International is a reputable and well-established manufacturing company that was founded in 1993. With over 30 years of experience in the industry, we have become a leading manufacturer of high-quality plastic injection moulded products for various industry sectors.

Our commitment to quality and customer satisfaction has helped us maintain our position as a trusted supplier in the market.

Our facility is located in the heart of the West Midlands and boasts modern machinery and moulding capability ranging from 30t to 700t.

With our state-of-the-art equipment and experienced team of professionals, we can offer a complete turnkey solution to all our current and potential customers. Whether you require a simple or complex moulded product, we have the expertise and resources to deliver a custom-made solution that meets your requirements.

At Glenlake International, we take pride in our ability to deliver products that meet the highest industry standards. We use only the best raw materials and employ stringent quality control measures to ensure that our products are of the highest quality.

Our team of experts is dedicated to providing exceptional service to our customers, and we strive to exceed their expectations with every project we undertake.

So, if you're looking for a reliable and experienced manufacturer of plastic injection moulded products, look no further than Glenlake International. Contact us today to learn more about our services and how we can help you achieve your goals.

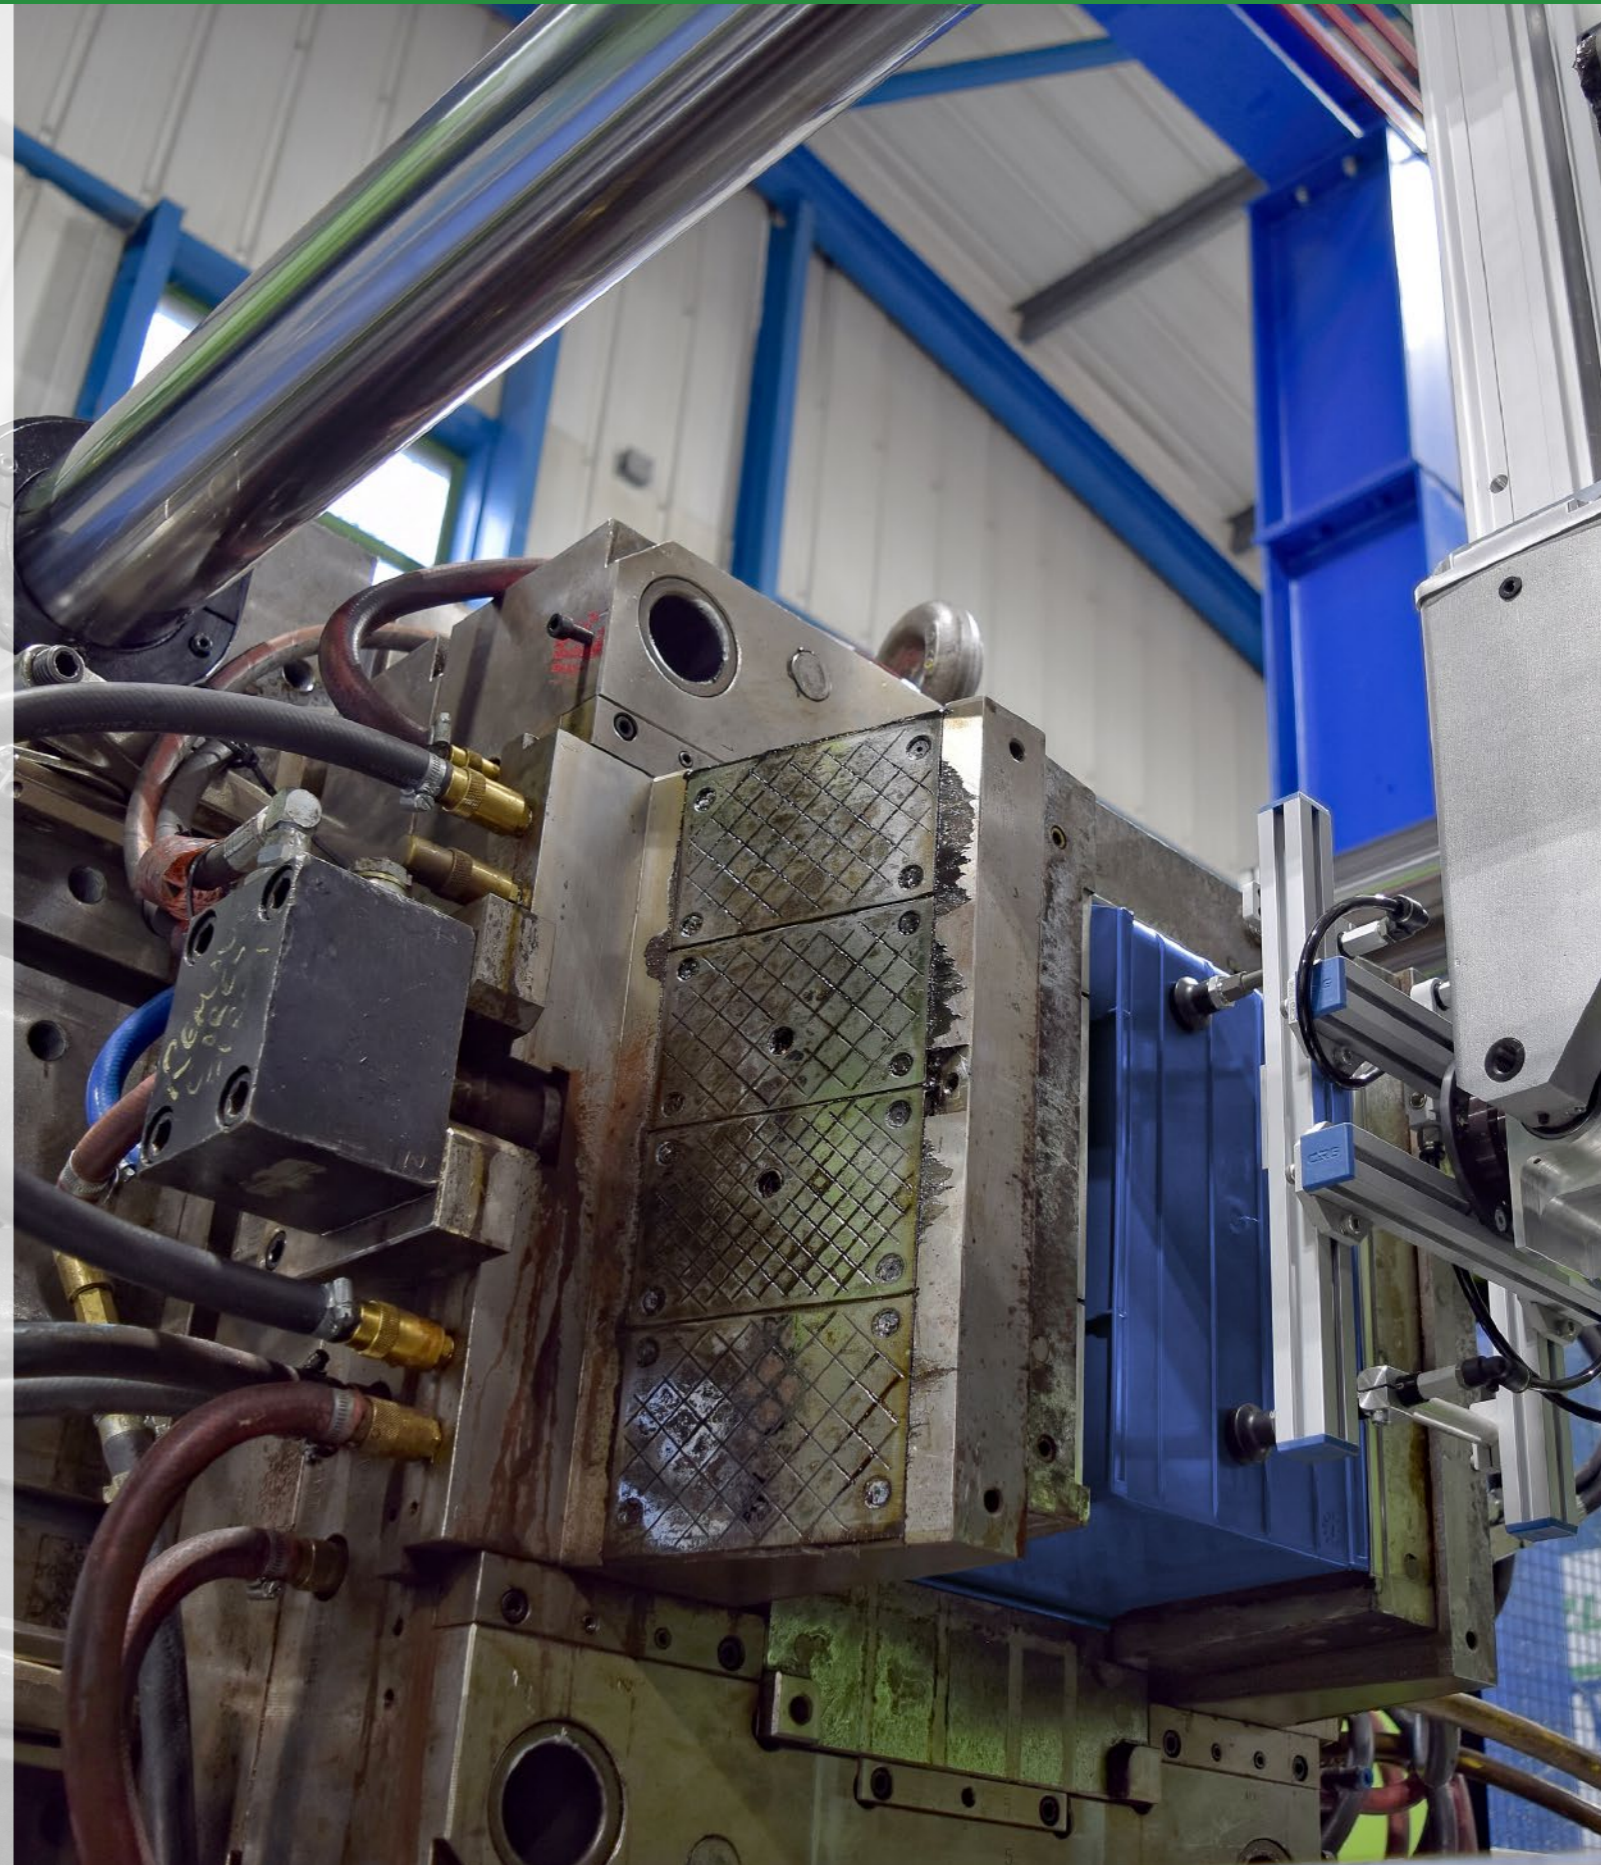

PLASTIC INJECTION MOULDING

We're a trusted injection moulding supplier in the West Midlands. Our facility boasts of over 17,000 square feet of dedicated manufacturing space that houses the latest, state-of-the-art equipment to cater to all your injection moulding requirements.

Our manufacturing capabilities range from 30t to 700t, allowing us to accommodate a wide range of production requirements. We understand that each customer's needs are unique, which is why we offer a flexible working program to ensure that we can work around your specific demands.

Producing plastic moulded components is our specialty and has resulted in the capability for manufacturing in a wide variety of thermoplastic materials to suit the end users needs.

This can range from recycled grades to offer a cost effective solution, right through to engineered polymers that include glass fillers and flame-retardants.

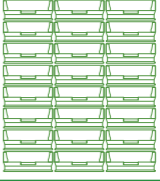

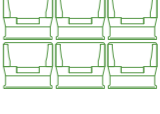

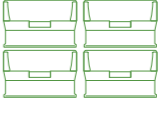

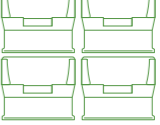

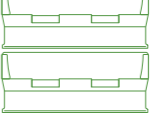

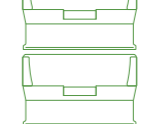

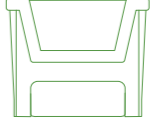

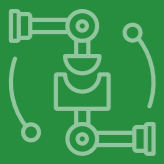

XL STORAGE CONTAINERS

Glenlake International is the home to the XL Storage Container range, which consists of several sizes of small-parts plastic picking containers. These containers with a partially open front are available in various sizes to meet your needs, including various hygiene colour options and reprocessed material alternatives. In addition, as part of our product portfolio, we offer both the XSTORE and XLSTORE Container, a complimentary and popular 50L and 75L stack and nesting container that perfectly complements the overall family of parts containers we offer.

We take immense pride in being, the only, if not, one of the very few direct UK manufacturers of such range of parts containers. All our containers are produced on site, using our modern tooling and machinery in house to ensure high quality and consistency. Our dedication to high quality, significant stock hold on site here in the Midlands has earned us a reputation as a trusted supplier of small parts and plastic pick containers in the UK.

			External Dimensions	Capacity	Louvre Value	Weight	Pack Quantity	Pallet Quantity	
XL1			L 90mm W 100mm H 50mm	0.46 Litres	1.50		0.04 Kg	20	2800
XL2			L 165mm W 100mm H 75mm	1.27 Litres	3		0.10 Kg	20	960
XL3			L 240mm W 150mm H 125mm	4.6 Litres	6		0.24 Kg	10	360

ASSEMBLY SERVICE

Our company has developed an in-house assembly department where we produce complex sub-assembled products for our customers.

We take pride in the fact that the majority of our assembly work is produced on-site, which allows us to bring together tight-tolerance components and engineering-grade polymers using a proven number of assembly techniques.

Our assembly department is equipped with state-of-the-art machines and tools to ensure that the products we assemble meet the highest quality standards. We have a team of experienced assemblers who oversee the entire process, ensuring that all components are assembled correctly and efficiently.

We understand that our customers require added-value services to streamline the supply chain and reduce costs. Therefore, we offer our customers a cost-effective solution by providing all the necessary services under one roof. Our facility and capabilities allow us to provide our customers with a range of value-added services, including design, prototyping, assembly, and testing.

Our in-house assembly department is a valuable asset to our customers as it provides a streamlined, cost-effective solution to their complex assembly needs.

Are you in search of a manufacturing partner that offers value-added assembly services?

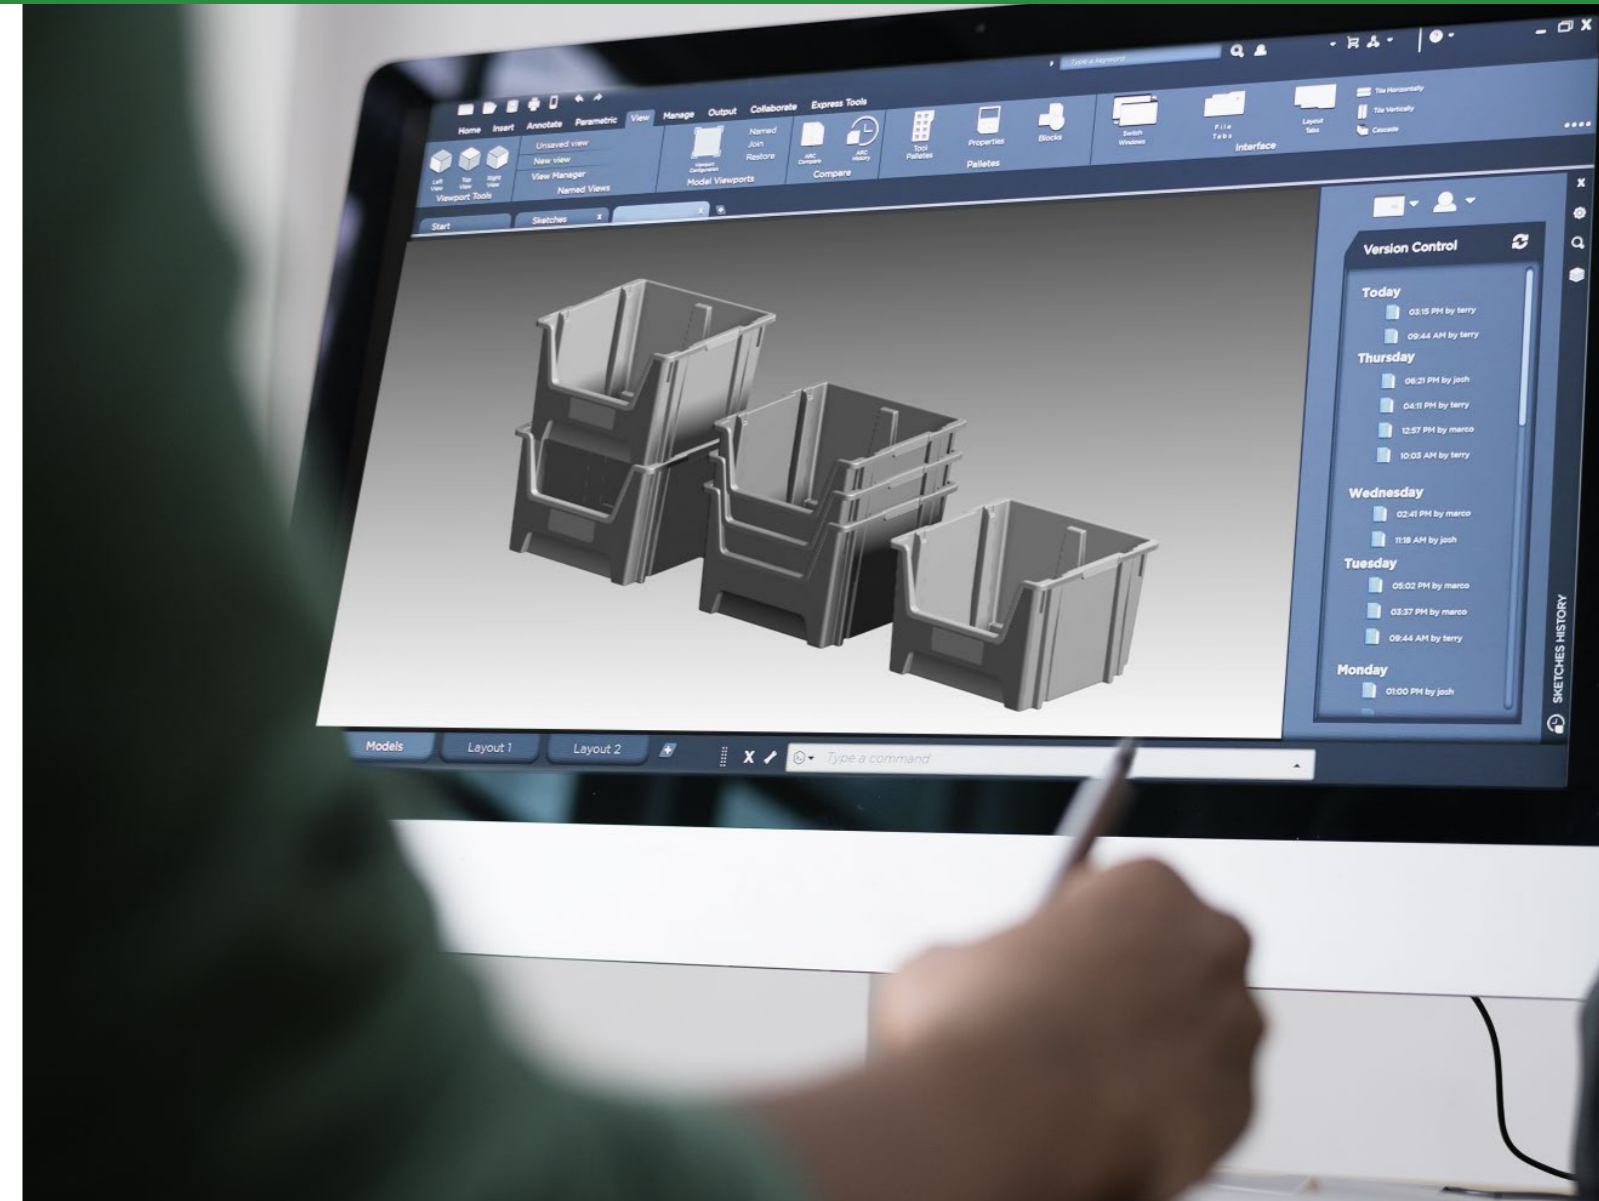

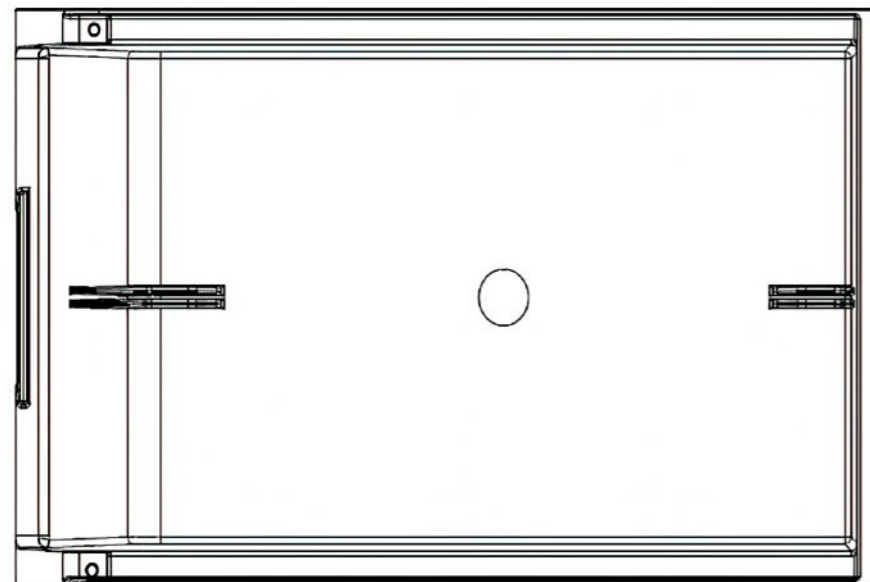

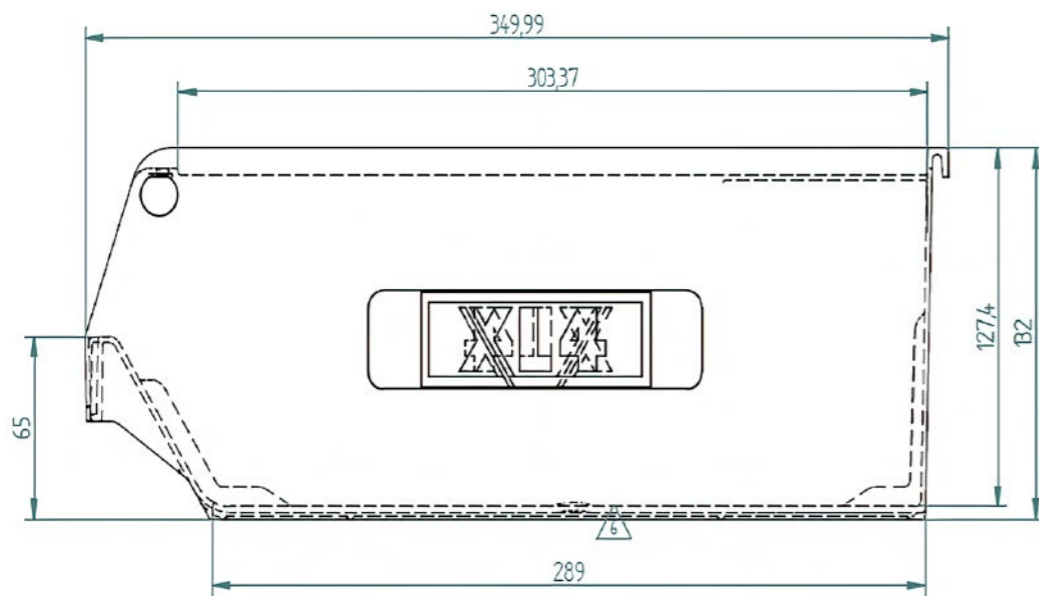

If so, we can help. We can offer top-quality assembly services that are designed to save you time and resources. Please do not hesitate to contact us to learn more about how we can assist you in streamlining your assembly process.

PROJECT MANAGEMENT

Our team has gained a wealth of expertise by managing a diverse range of projects, which has equipped us with the necessary skills and knowledge to offer a comprehensive range of services to our clients. We possess a well-established network of industry contacts that can provide valuable support in developing your product from the initial design phase through to production supply.

We understand the importance of being involved from the outset of a project, as it enables us to fully comprehend your requirements and offer tailored solutions to meet your specific needs. Our involvement from the start can help you gain a competitive edge in the market by identifying areas for improvement and cost reduction.

We are committed to sourcing and managing the most cost-effective manufacturing solution for both the part and production tooling. Our team will work closely with you to gain a thorough understanding of your product and to identify the most appropriate manufacturing processes and materials. This approach ensures that we can deliver a high-quality product that meets your expectations while remaining within your budget.

We possess the necessary experience and expertise to deliver a comprehensive service, managing your project from inception to delivery. Our focus on delivering value to our clients means that we will work diligently to ensure your project's success.

QUALITY

Glenlake International are proud to be accredited to ISO 9001:2015, an internationally recognised standard for quality management systems. This accreditation reflects our ongoing commitment to delivering consistent quality, continuous improvement, and customer satisfaction across all areas of our business.

What ISO 9001:2015?

ISO 9001:2015 sets out the criteria for an effective quality management system. It focuses on strong process control, risk-based thinking, and a customer-focused approach - ensuring that products and services are delivered reliably and to a consistently high standard.

In order to achieve and maintain this accreditation through regular audits and surveillance visits, we must continually demonstrate that our processes are well managed, clearly documented, and regularly reviewed to ensure they meet both customer expectations and regulatory requirements.

Quality is at the core of everything we do. Being ISO 9001:2015 accredited means we:

- Follow structured and well-defined processes
- Continuously monitor and improve performance
- Manage risks and opportunities effectively
- Maintain clear communication and accountability
- Focus on meeting and exceeding customer expectations

This approach helps us deliver reliable products and services while continually improving how we operate.

We actively seek feedback from customers, suppliers, and our team to identify opportunities for improvement and drive positive change throughout the business.

For our customers, ISO 9001:2015 accreditation provides confidence that they are working with a business that values quality, consistency, and transparency. It reinforces our dedication to delivering dependable results and building long-term partnerships based on trust.

Our ISO 9001:2015 accreditation underlines our promise to maintain high standards today and into the future.
